Additional Licence Windows Server 2019 (16-Core) Datacenter EMEA

Manufacturer [Hewlett-Packard](#)
EAN 190017333731
Manufacturer# P11067-A21

Description

Microsoft Windows Server 2019 is the operating system bridging on-premises and cloud that will help you to grow your business locally and extend operations to the cloud from a position of strength. It maximizes your existing investments and builds on Windows Server security, app innovation, and Hyper-Converged Infrastructure capabilities to help you extend and enrich on-premises investments to include cloud services. Today, most business owners face daily challenges in running their businesses. One of the most difficult challenges can include managing a high level of security. Windows Server 2019 is designed to help. Datacenter is ideal for companies of all sizes that have demanding IT workloads, require advanced storage, virtualization, and application deployment.
