| | |
|---------------|---------------------------------|
| Manufacturer | Hewlett-Packard |
| EAN | 190017190365 |
| Manufacturer# | Q5T66A |

Description

Want a switch for remote management of all your servers, network devices, and technology infrastructure? HPE KVM IP switches can allow an administrator to manage many servers across two tiers from a single local console in cascaded environments. Virtual edia allows a removable drive or ISO image to be remotely mapped to an attached server or a remote office.
