Description

Your employees get the productivity and collaboration tools they want, while your IT uses a single administration console to manage features, policies and monitor service health from virtually anywhere with one easy-to-use, cloud-based tool. With Office 365 your data is safer, thanks to robust disaster recovery capabilities, globally-redundant backups, and extensive privacy features. And your users are highly protected against spam and viruses with filters. MICROSOFT OPEN VALUE SUBSCRIPTION OPTION With the Subscription option, you pay a single price per desktop (five desktop minimum) to deploy Microsoft technology as the standard across your organization, just as with the Company-wide option. However, the Subscription option provides you with rights to run the software only during the term of the agreement with Microsoft (nonperpetual).
